

## **Replacing / Repairing Horizontal Aluminum Skirting**

As you may know, although the Wynne Building Company has been installing new horizontal aluminum skirting slats in the refurbishing of their homes, it has been virtually impossible for us individual homeowners to procure the horizontal skirting slats that many of our homes have. Requests of park management to help us out with this issue have happily yielded results. The following information is taken from the April 24 – May 1, 2025 Spanish Lakes Golf Village newsletter.

Spanish Lakes Communities has partnered with their aluminum supplier to develop a solution that allows homeowners to purchase privately, previously unavailable horizontal, aluminum skirting. It is now available in any quantity from Mastercraft Aluminum Products, located at 1634 Southeast Niedermaier Circle, Port St. Lucie, FL 34952. The phone number for Mastercraft aluminum products is 772-335-1177. Sheryl can assist you further.
